Sir:

The references cited on the attached PTO/SB/08B form are being called to the attention of the Examiner. Copies of the references are enclosed. It is respectfully requested that the cited references be expressly considered during the prosecution of this application, and the references be made of record therein and appear among the "references cited" on any patent to issue therefrom.

The references are obtained from an opposition against a corresponding European patent, EP 730 643. Other references from the opposition have been cited previously. Appended

to document AG is a part of a document from earlier in the proceedings titled "Annex 1: list of cited documents" which provides correspondence between D numbers and reference citations for references referred to in AG. The complete record of the opposition to date can be viewed online (<http://ofi.epoline.org/view/GetDossier>) or can be provided on request.

As provided for by 37 CFR 1.97(g) and (h), no representation is being made that a search has been conducted or that this statement encompasses all the possible relevant information, and no inference should be made that the information and references cited are, or are considered to be material to patentability because they are in this statement. No inference should be made that the information and references cited are prior art merely because they are in this statement.

Applicant believes that no fee is required for submission of this statement. However, if a fee is required, the Commissioner is authorized to deduct such fee from the undersigned's Deposit Account No. 20-1430. Please deduct any additional fees from, or credit any overpayment to, the above-noted Deposit Account.

Respectfully submitted,

Joe Liebeschuetz
